ADN End of Program Student Learning Outcomes

1. Teamwork and communication:

Collaborate with clients and members of the interdisciplinary health care team to optimize effective communication, caring behaviors, and management of client needs.

2. Professionalism and leadership:

Adhere to professional standards and scope of practice as an associate degree registered nurse while pursuing professional growth and acting as a leader and change agent within legal, ethical and regulatory frameworks.

3. Client-centered care:

Provide culturally competent care and advocate for clients while promoting their self-determination and integrity.

4. Evidence-based practice and nursing judgment:

Implement nursing judgment to make safe, effective, and evidence-based decisions that integrate science and the nursing process in providing holistic client care.

5. Quality improvement and safety:

Incorporate a spirit of inquiry to make evidence-based clinical judgments and management decisions to improve the safety and quality of care across a variety of systems.

6. Informatics:

Integrate current technology to support decision-making and manage information in the delivery of client care.
